

**Petition to Preserve Westdale Trousdale's 1940's Courtyard Apartment Row
On the South Side of National Blvd. between Federal and Butler Avenues**

We, the undersigned, believe replacing these apartments with contemporary condominiums will destroy a unique feature of our neighborhood and erode the design integrity of Westdale Trousdale, a post WW II, family-friendly, well-scaled community. Further, the proposed development will deplete affordable housing displacing low and fixed-income residents. The destruction of the Westdale Courtyard Apartments will also add to the degradation of our quality of life environmentally and aesthetically. Therefore, we strongly oppose this destruction.
